

SAP Rescue Association Adoption Agreement

I _____ understand that SAP Rescue Association's mission is to help decrease pet overpopulation in the USA. Therefore I promise to have the animal I have adopted from them, spayed or neutered within 30 days (or by 6 months of age) from the adoption date of _____. I will send proof of this being done to SAP Rescue upon its completion.

I further agree that I will not tie this pet out, but will rather seek another type of humane safe containment to keep my pet safe when unattended. If I find that I am no longer able to care for this pet for any reason I will contact SAP for help in placement of this pet.

I also agree that if I do not fulfill the requirements stated above that this pet will be relinquished back to the care of SAP to choose how the animal will be best taken care of. I understand that owning a pet is a life long commitment that should be taken very seriously.

I also know that SAP has done all that they possibly can to see that this pup or kitten is healthy, but that they can make no guarantee of this animal's temperament or long term health. As well, we will not hold SAP Rescue Association responsible for any financial or legal mishaps that may occur because of acquiring ownership of this pet.

Thank you very much for helping us to save lives and create safe happy New England home for our animals.
